

# PIPOCA SHOW

Clown, Magic and Humor

**"I think we all deserve and need to laugh, enjoy and be surprised by the magic of life"**

The **Pipoca Show** company was born in 2017 while I was traveling around the world, learning different techniques. Juggling, clowning and magic were the main driving force that brought me to what is today "Pipoca" in all its facets.

A long road of street shows, and close-up magic. Traveling through many countries in Europe, South America, India and the Middle East. In street art festivals, private events, cruises, in squares and streets of many cities visited.

Always with the mission of bringing laughter, joy and illusion wherever I go. Because this is what fills my heart.

# **Fantasia o realidad ?**

**Pipoca takes us directly into his fantasy world. When he does magic, nothing turns out the way he expects. The same magic reveals itself to him in unexpected ways and moments.**

**From an umbrella that loses control, a handkerchief that fails to reappear, a rebel rope, to an imaginary tennis challenge with a member of the audience and an attempt to balance everything, including himself, on glass bottles, in a stunt that seems impossible. Laughter, emotions, empathy, failures and triumphs and a lot of magic from beginning to end.**
